UPDATES & CHANGES

Updated 8/22/2024

Students Experiencing Poverty

Starting in 2023-24, the At-A-Glance School and District Profiles will display the “Students Experiencing Poverty” student group replacing the formerly used, “Economically Disadvantaged” student group.

In previous years, the Oregon Department of Education (ODE) defined the “Economically Disadvantaged” student group as those students that were eligible to receive free or reduced-price school meals. ODE has updated its definition of economic disadvantage, and to avoid confusion with the previous definition, relabeled the student group as, “Students Experiencing Poverty.”

The new Students Experiencing Poverty student group includes those students that meet any of the following criteria:

- Received Supplemental Nutrition Assistance (SNAP) or Temporary Assistance for Needy Families (TANF). Data delivered to ODE from the Oregon Department of Human Services (ODHS)
- Were in foster care. Data delivered to ODE from ODHS
- Experienced houselessness. As defined and reported in the McKinney-Vento data collection
- Received migrant education services. As reported in the Oregon Migrant Student Information System (OMSIS).

See the [Outcomes](#) section for more information.

College Going

Beginning in 2023-24, ODE revised its methodology for measuring College Going to include students in a high school graduating class who enroll in a postsecondary institution before the end of the first academic year following graduation. The denominator for the College Going rate includes students who graduated with a regular or modified diploma in a given academic year, regardless of when they entered high school. In previous years, College Going looked at college enrollment within 16 months of graduation, among students who began high school in the same year. As a result, College Going data in 2023-24 At-A-Glances are not comparable to prior years and prior year trend arrows are not shown.

See the [College Going](#) section for more information.

PURPOSE OF THE AT-A-GLANCE PROFILES

The At-A-Glance School and District profiles are published each year alongside the Accountability Detail sheets. Together, the At-A-Glance School and District Profiles and the Accountability Detail Sheets comprise the Oregon Department of Education's larger reporting system as required by the Oregon State legislature and the Every Student Succeeds Act (ESSA). The At-A-Glance School and District Profiles were designed by and for parents and community members to be an understandable and easy to read overview of how schools and districts serve their students. For more information on the redesign project, go to the [Report Card Redesign webpage](#).

The At-A-Glance School and District Profiles do not rate or grade schools and districts and they are not used to determine levels of support under ESSA.

Districts can preview the data published on the At-A-Glance in the [Achievement Data Insight](#) (ADI) application. District staff should contact their [district security administrator](#) for access to the ADI.

All data is based on the 2023-24 school year unless otherwise noted. Exceptions include the On-Time Graduation, Five-Year Completion, College Going, Teacher Retention, Same Principal, and Per Pupil Expenditure data elements.

There are three profile types: Elementary/Middle, High School, and District. This document is organized into two sections. This first section describes the data included on the Elementary/Middle and High School profiles. The second section describes the data included on the District profiles.

GUIDELINES FOR REPRODUCING AND DISTRIBUTING THE AT-A-GLANCE PROFILES

Districts are responsible for ensuring that the At-A-Glance profiles reach the parents of children enrolled in Oregon public schools. As prescribed in Oregon Administrative Rule (OAR) [581-022-2255](#), parents must receive a copy of the At-A-Glance profiles (report cards) by **January 15** of each year. While many districts choose to mail At-A-Glance profiles to parents, it is important to note that this is not a requirement. Districts have discretion concerning the method they use to distribute At-A-Glance profiles to parents and communities. Alternative distribution methods, according to OAR [581-022-2255](#), include electronically sending a copy, providing a link to a state or district web site containing the reports, or making copies available in local schools, libraries, parent centers, community centers, or other public locations easily accessible to parents and community members.

Current year and prior year's At-A-Glance Profiles are available for the public to download from [ODE's webpage](#).

ELEMENTARY/MIDDLE AND HIGH SCHOOL PROFILES

STUDENTS WE SERVE

The major data sources for this section are Spring Membership, as extracted from Third Period Cumulative ADM and other student and staff level collections, including the Staff Position collection.

STUDENT ENROLLMENT

The count of students enrolled in a school. The basis is the attending school as captured in the Spring Membership extract, which is a record of student enrollment on the first school day in May. For more information on membership extracts, refer to the [Student Membership Manual](#).

STUDENT DEMOGRAPHICS

Student race/ethnicity in a school as reported in Spring Membership. In cases where at least one student in a group is enrolled at the school, but the percentage would round to 0, we display "<1". Similarly, if the percentage would round to 100, but not every student in the school belongs to that group, we display ">99".

TEACHER DEMOGRAPHICS

Staff race/ethnicity in a school as reported in the Staff Position collection. The Staff Position Collection is a December 1 snapshot of all public school and district staff. The calculation includes Head Teachers, Teachers, Special Education Teachers, Special Education Physical Education Teachers, Principals, Assistant Principals, Licensed Librarians, and Non Special Education School Counselors (position codes 3, 4, 5, 8, 9, 10, 22, or 23). In cases where at least one staff member in a group is reported at the school, but the

percentage would round to 0, we display “<1”. Similarly, if the percentage would round to 100, but not every staff member in the school belongs to that group, we display “>99”. For more information, refer to [Staff Position Manual](#).

EVER ENGLISH LEARNERS

The percentage of students in Spring Membership who are current or former English learners. The data source is the Unduplicated English Learner data, matched to Spring Membership records. Students are considered Ever English Learners if they appear in the current year unduplicated Title III English Learner spring collection with a record type other than ‘3H’, ‘2J’, ‘SE’, or ‘EI’. The data are suppressed when the number of students in the denominator is less than ten then this indicator is suppressed with an ‘*’; when the percentage is less than 5 or greater than 95, we display “<5” and “>95”, respectively.

LANGUAGES SPOKEN

The number of distinct languages in district as reported in the “Language of Origin” field in Spring Membership, excluding codes 0000 (N/A) and 4730 (undetermined).

STUDENTS WITH DISABILITIES

The percentage of students on an Individualized Education Plan (IEP) at any time in the school year, as reported in Spring Membership.

The data are suppressed when necessary: if the number of students in the denominator is less than ten then this indicator is suppressed with an ‘*’; when the percentage is less than 5 or greater than 95, we display “<5” and “>95”, respectively.

REQUIRED CHILDHOOD VACCINATIONS

The percentage of students in a school with all required childhood vaccinations. Note that this does **not** include the COVID-19 vaccine. The denominator is attending school enrollment as reported to the Oregon Health Authority (OHA). The numerator is the total number of students with all required vaccinations. An ‘*’ is displayed for schools where student populations are below ten students. ODE receives immunization data from the OHA; for more information, go to the OHA’s [School Immunization Rates](#) web page.

STUDENTS EXPERIENCING POVERTY

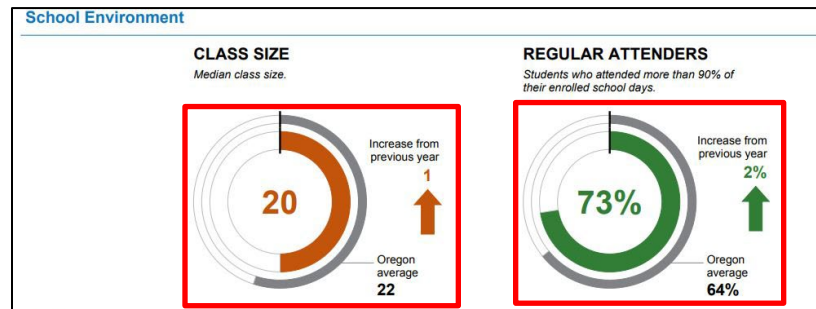

The percentage of students in Spring Membership that met any of the below criteria at any time in the school year. The data are suppressed when the number of students in the denominator is less than ten then this indicator is suppressed with an ‘*’; when the percentage is less than 5 or greater than 95, we display “<5” and “>95”, respectively.

- Received Supplemental Nutrition Assistance (SNAP) or Temporary Assistance for Needy Families (TANF). Data delivered to ODE from the Oregon Department of Human Services (ODHS)
- Were in foster care. Data delivered to ODE from ODHS
- Experienced homelessness. As defined and reported in the McKinney-Vento data collection

- Received migrant education services. As reported in the Oregon Migrant Student Information System (OMSIS).

SCHOOL ENVIRONMENT

This section includes Class Size and Regular Attenders.

CLASS SIZE

The median class size on the first school day in May, as reported in the Class Roster collection. This calculation includes all classes in core subject areas, and excludes non-instructional courses. For more information, refer to the [Class Size Technical Manual](#).

The State Average is the median class size for all schools and all grades combined.

REGULAR ATTENDERS

The percentage of students who attend more than 90% of their enrolled days within a school. This calculation only includes students in Spring Membership with at least 75 days of attendance in the school. The calculations are based on the attending school field in Third Period Cumulative ADM. For more information, refer to the [Regular Attenders Validation Manual](#).

The data are suppressed when necessary: if the number of students in the denominator is less than ten then this indicator is suppressed with a “*”; when the percentage is less than 5 or greater than 95, we display “<5” and “>95”, respectively.

The State Average is the percentage of Regular Attenders for all grades combined, K-12. It does not reflect the grades served by the school.

ACADEMIC PROGRESS

High schools and combined school profiles have a space to show On-Track to Graduate.

ON-TRACK TO GRADUATE

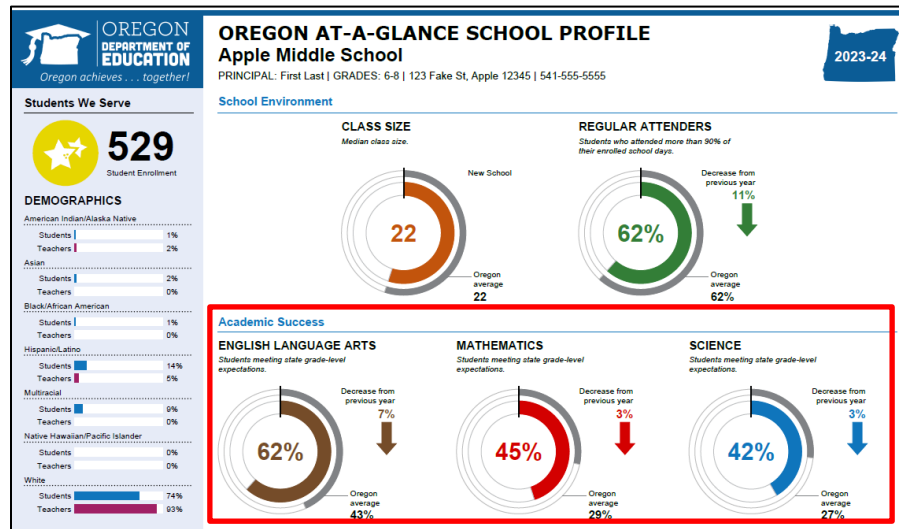

The percentage of students that have earned at least one quarter of their required credits for graduation in their first year in high school. The denominator is the number of resident students in Spring Membership that are full academic year at the school and have a high school entry year of 2023-24. The numerator is the number of students earning at least one quarter of required credits by August 31, 2024 following their first year in high school.

Students are full academic year if the total ADM for their Spring Membership record is greater than 0.5 ADM across all of their Third Period Cumulative ADM records. The denominator excludes students who enrolled on the first week day in May but who transfer out of the school prior to the end of the school year. For more information, refer to the [Ninth Grade On-Track User Manual](#).

The data are suppressed when necessary: if the number of students in the denominator is less than ten then this indicator is suppressed with a '*'; when the percentage is less than 5 or greater than 95, we display "<5" and ">95", respectively.

ACADEMIC SUCCESS

The Academic Success indicators vary by school. Elementary and Middle school profiles include English Language Arts, Mathematics, and Science assessment, while high schools and combined schools include On-Time Graduation, Five-Year Completion, and College Going rates.

ENGLISH LANGUAGE ARTS (ELA)

The percentage of students who achieved a Level 3 or Level 4 on the statewide ELA assessment, among those participating in the assessment. The denominator includes students in Spring Membership that are full academic year and had a valid test score, excluding first-year English learners. The numerator is those students in the denominator who achieved a Level 3 or Level 4. Students who achieved a Level 3 or Level 4 on the Extended Assessment (alternate standard) are included in the numerator.

Students are full academic year if the total ADM for their Spring Membership record is greater than 0.5 ADM across all of their Third Period Cumulative ADM records.

For schools that only serve students in grades K-2, ELA assessment data is calculated and published using the K-2 school's "receiver" school assessment data. "Receiver" schools are those schools that serve students after they matriculate out of grade 2 and into grades that participate in the statewide ELA assessment.

The data are suppressed when necessary: if the number of students in the denominator is less than ten then this indicator is suppressed with a "*"; when the percentage is less than 5 or greater than 95, we display "<5" and ">95", respectively.

The State Average shown is the state percentage for the grades served by the school. For example, for a K-5 school, the state average would be the state average for grades 3-5.

MATHEMATICS

The percentage of students who achieved a Level 3 or Level 4 on the statewide mathematics assessment, among those participating in the assessment. The denominator includes students in Spring Membership that are full academic year and had a valid test score, excluding first-year English learners. The numerator is those students in the denominator who achieved a Level 3 or Level 4. Students who achieved a Level 3 or Level 4 on the Extended Assessment (alternate standard) are included in the numerator.

Students are full academic year if the total ADM for their Spring Membership record is greater than 0.5 ADM across all of their Third Period Cumulative ADM records.

For schools that only serve students in grades K-2, mathematics assessment data is calculated and published using the K-2 school's "receiver" school assessment data. "Receiver" schools are those schools that serve students after they matriculate out of grade 2 and into grades that participate in the statewide mathematics assessment.

The data are suppressed when necessary: if the number of students in the denominator is less than ten then this indicator is suppressed with a "*"; when the percentage is less than 5 or greater than 95, we display "<5" and ">95", respectively.

The State Average shown is the state percentage for the grades served by the school. For example, for a middle school serving grades 6-8, the state average would be the state average for grades 6-8.

SCIENCE

The percentage of students who achieved a Level 3 or Level 4 on the statewide science assessment, among those participating in the assessment. The denominator includes students in Spring Membership that are full academic year and had a valid test score, excluding first-year English learners. The numerator is those students in the denominator who achieved a Level 3 or Level 4. Students who achieved a Level 3 or Level 4 on the Extended Assessment (alternate standard) are included in the numerator.

Students are full academic year if the total ADM for their Spring Membership record is greater than 0.5 ADM across all of their Third Period Cumulative ADM records.

For schools that only serve students in grades K-2, science assessment data is calculated and published using the K-2 school's "receiver" school assessment data. "Receiver" schools are those schools that

serve students after they matriculate out of grade 2 and into grades that participate in the statewide science assessment.

The data are suppressed when necessary: if the number of students in the denominator is less than ten then this indicator is suppressed with a “*”; when the percentage is less than 5 or greater than 95, we display “<5” and “>95”, respectively.

The State Average shown is the state percentage for the grades served by the school. For example, for a school serving grades K-8, the state average would be the state average for grades 5 and 8.

ON-TIME GRADUATION

The percentage of students earning a regular or modified diploma within four years of entering high school. Data is shown for the cohort of students entering high school for the first time in the 2019-20 school year. This was the expected class of 2022-23 school year. Rates are based on an adjusted cohort. Each school’s cohort begins with the incoming 9th grade class each fall. Students are then added to the cohort when they transfer into the school and are removed from the school’s cohort if they transfer to another diploma-granting high school (in state or out of state), are deceased, or transfer to home or private school.

The denominator is the four-year adjusted cohort for the school. The numerator is students in the denominator who earned a regular or modified diploma by August 31, 2022. For more information, refer to the [Cohort Graduation Rate Policy and Technical Manual](#).

No suppression is applied to the total school level rate.

FIVE-YEAR COMPLETION

The percentage of students earning a regular diploma, modified diploma, extended diploma, adult high school diploma, or GED within five years of entering high school. Data are shown for the cohort of students entering high school for the first time in the 2018-19 school year and completing high school by 2022-23. These were students who were expected to graduate in 2021-22. Rates are based on an adjusted cohort. Each school’s cohort begins with the incoming 9th grade class each fall. Students are then added to the cohort when they transfer into the school and are removed from the school’s cohort if they transfer to another diploma-granting high school (in state or out-of-state) or are deceased, or transfer to home or private school.

The denominator is the five-year adjusted cohort for the school. The numerator is students in the denominator who earned a GED or a regular, modified, extended, or adult high school diploma by August 31, 2023. For more information, refer to the [Cohort Graduation Rate Policy and Technical Manual](#).

No suppression is applied to the total school level rate.

COLLEGE GOING

This is the percentage of On-Time graduates who enroll in a postsecondary institution after graduating and before the end of the first academic year that follows the cohort’s graduation. The source of the postsecondary enrollment data is the National Student Clearinghouse.

The denominator includes the cohort of students earning a regular or modified diploma in the 2021-22 school year. The numerator is students in the denominator who have a postsecondary enrollment begin date that follows their high school exit date and is on or after June 1, 2022 and before July 1, 2023.

The data are suppressed when necessary: if the number of students in the denominator is less than ten then this indicator is suppressed with a “*”; when the percentage is less than 5 or greater than 95, we display “<5” and “>95”, respectively.

SCHOOL GOALS, STATE GOALS, AND SAFE & WELCOMING ENVIRONMENT

The Oregon Department of Education (ODE) provides the State Goals section. The School Goals and the Safe & Welcoming Environment sections are submitted to ODE by districts in the At-A-Glance Narrative Collection. For more information on this collection, please refer to the [At-A-Glance Narrative Collection manual](#).

<p><5% Ever English Learners</p> <p>16% Students with Disabilities</p> <p>78% Required Childhood Vaccinations</p> <p>>95% Free/Reduced Price Lunch</p> <p><small>*<10 students or data unavailable</small></p>	<p>School Goals</p> <p>At Apple Middle School we work diligently to create and maintain an environment where students feel safe and supported to learn and grow. Over the past eight years, Apple Middle School has transitioned to a Proficiency Based Grading model where learning expectations are clearly defined in every classroom. These clear and explicit learning expectations have helped our teachers be more focused in their instruction and have enabled our students to better meet these learning expectations.</p>	<p>State Goals</p> <p>The Oregon Department of Education is partnering with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2025. To progress toward this goal, the state will prioritize efforts to improve attendance, provide a well-rounded education, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.</p>	<p>Safe & Welcoming Environment</p> <p>Our goal at AMS is to ensure that all students and families feel welcome and safe. Our school uses a team model to deliver the core curriculum and provide a homeroom teacher (in the 6th grade two teams of three teachers work with 80-85 students, in 7th/8th grades, three teams of five teachers work with 105-110 students). Using this model, where teachers share the same group of students, we are able to ensure that students are seen, heard, known and supported at AMS. Additionally, students are supported by our student advocate, school counselor, counseling interns, school psychologist, administrators, and school nurse.</p>

OUR STAFF (ROUNDED FTE)

The data source for this section is the Staff Position collection, which is a snapshot of school and district staff employed on December 1 each year. Full time equivalent (FTE) is adjusted to account for staff who do not work the full contract length (FTE * Contract Length/Full Contract Length). Fractional FTE is rounded based on the following rules: FTEs that are zero, remain as zero; FTEs that are less than 1 will be reported as “<1”. FTEs that are 1 or greater will be rounded to the nearest whole number (e.g. an FTE of 1.2 rounds to 1, and 1.9 rounds to 2). For more information, refer to the [Staff Position Manual](#).

greater than 1 is rounded to the nearest whole number. For more information, refer to the [Staff Validation guidance document](#).

AVERAGE TEACHER RETENTION RATE

Based on the three-year average of the percentage of teachers employed at a school that return to the school in at least one of the two following school years. The denominator for each school year is the total adjusted FTE of teachers (staff members reported with position codes 5, 8, 22 or 23) at the school, while the numerator is the total adjusted FTE of the staff included in the denominator that returned to the school in any position in at least one of the following two years.

The three-year average is calculated by taking the sum of the numerators for the 2019-20 through 2021-22 school years divided by the sum of the denominators for the 2019-20 through 2021-22 school years. Data is pulled from the 2019-20 through 2023-24 Staff Position collections. For more information, refer to the [Staff Validation Guidance](#) document.

TEACHER EXPERIENCE

The Teacher Experience percentage is calculated by dividing the number of Experienced Teachers who are licensed by the total number of Teachers who are licensed at a given institution. Data come from the 2023-24 Staff Position Collection. A teacher is defined as a head teacher, teacher, special education teacher, or special education physical education teacher (position codes 5, 8, 22, or 23). A teacher is considered an Experienced Teacher if they are reported as licensed and the sum of the years of experience in Oregon and outside of Oregon is greater than three years.

Teachers who are not included in this calculation include the following:

- Teachers who are reported as unlicensed in the Staff Position Collection or
- Teachers who are on TSPC's charter school registry but not otherwise licensed

For more information, refer to the [Staff Validation Guidance](#) document.

SAME PRINCIPAL FOR THE LAST 3 YEARS

A "Yes" indicates that the school had the same principal in the previous three years. Schools with co-principals will have a "Yes" as long as at least one of the co-principals was employed at the school for all three years. Schools that opened in 2023-24 or that are assigned new school status will show "Yes."

A "No" indicates that the school had a change in principals in the previous three years.

Principals are staff members reported with position code 3. Schools that had no principal, but reported a Head Teacher (position code 5) use the Head Teacher to calculate this metric.

Data are from the 2021-22 through 2023-24 Staff Position collections. For more information, refer to the [Staff Validation Guidance](#) document.

OUTCOMES

The Outcomes section shows disaggregated data for three key indicators from the first page of the report. The Elementary and Middle School profiles include student group disaggregations for Regular Attenders, English Language Arts performance, and Mathematics performance.

The High School profiles include student group disaggregations for Regular Attenders, On-Track to Graduate, and On-Time Graduation.

The following rules describe how student group inclusion is determined. The data are suppressed when necessary: if the number of students in the denominator is less than ten then this indicator is suppressed with "<10 students or data unavailable"; when the percentage is less than 5 or greater than 95, we display "<5" and ">95", respectively.

HIGH SCHOOL SUCCESS

The High School Success section of the At-A-Glance profiles includes ninth graders On-Track to Graduate, On-Time Graduation, and Five-Year Completion.

ON-TRACK TO GRADUATE

The percentage of students that have earned at least one quarter of their required credits for graduation in their first year in high school. The denominator is the number of resident students in Spring Membership that are full academic year at the district and have a high school entry year of 2023-24. The numerator is the number of students earning at least one quarter of required credits by August 31, 2024 following their first year in high school.

Students are full academic year if they were enrolled on the first school day in May and the total ADM for their Spring Membership record is greater than 0.5 ADM across all of their Third Period Cumulative ADM records. The denominator excludes students who enrolled on the first week day in May but who transfer out of the district prior to the end of the school year. For more information, refer to the [Ninth Grade On-Track collection manual](#).

The percentage of students earning a regular or modified diploma within four years of entering high school. Data are shown for the cohort of students entering high school for the first time in the 2019-20 school year, and their outcomes as of 2022-23. Rates are based on an adjusted cohort. Each school's cohort begins with the incoming 9th grade class each fall. Students are then added to the cohort when they transfer into the school and are removed from the school's cohort if they transfer to another

diploma-granting high school (in state or out-of-state) or are deceased, or transfer to home or private school.

The denominator is the four-year adjusted cohort for the school. The numerator is students in the denominator who earned a regular or modified diploma by August 31, 2023. For more information, refer to the [Cohort Graduation Rate Policy and Technical Manual](#).

No suppression is applied to the total district level rate.

FIVE-YEAR COMPLETION

The percentage of students earning a regular diploma, modified diploma, extended diploma, adult high school diploma, or GED within five years of entering high school. Data are shown for the cohort of students entering high school for the first time in the 2018-19 school year, and their outcomes as of 2022-23. Rates are based on an adjusted cohort. Each district's cohort begins with the incoming 9th grade class each fall. Students are then added to the cohort when they transfer into the district and are removed from the district's cohort if they transfer to another diploma-granting high school (in state or out-of-state) or are deceased, or transfer to home or private school.

The denominator is the five-year adjusted cohort for the district. The numerator is students in the denominator who earned a GED or a regular, modified, extended, or adult high school diploma by August 31, 2023. For more information, refer to the [Cohort Graduation Rate Policy and Technical Manual](#).

No suppression is applied to the total district level rate.

OUR STAFF (ROUNDED FTE)

The data source for this section is the Staff Position collection, which is a snapshot of school and district staff employed on December 1 each year. Full time equivalent (FTE) is adjusted to account for staff who do not work the full contract year ($FTE * \text{Contract Length} / \text{Full Contract Length}$). Fractional FTE is rounded based on the following rules: FTEs that are zero remain as zero; FTEs that are less than 1 will be reported as "<1." FTEs that are 1 or greater will be rounded to the nearest whole number (e.g. an FTE of 1.2 rounds to 1 and 1.9 rounds to 2). For more information, refer to the [Staff Position Manual](#).

COUNSELORS

The total adjusted FTE of counselors at the district, as reported in [Staff Position](#). FTE is adjusted based on the contract and full contract length to account for staff who do not work the full academic year ($\text{FTE} * \text{Contract Length} / \text{Full Contract Length}$). This calculation includes School Counselors and Special Education Counselors and Rehabilitation Counselors (staff reported with position codes 10 or 33). Any fractional FTE greater than 1 is rounded to the nearest whole number. For more information, refer to the [Staff Validation guidance document](#).

LICENSED LIBRARIANS

The total adjusted FTE of licensed librarians in the district, as reported in [Staff Position](#). FTE is adjusted based on the contract and full contract length to account for staff who do not work the full academic year ($\text{FTE} * \text{Contract Length} / \text{Full Contract Length}$). This calculation includes Library/Media Specialists (staff reported with position code 9). Any fractional FTE greater than 1 is rounded to the nearest whole number. For more information, refer to the [Staff Validation guidance document](#).

PSYCHOLOGISTS

The total adjusted FTE of psychologists at the district, as reported in [Staff Position](#). FTE is adjusted based on the contract and full contract length to account for staff who do not work the full academic year ($\text{FTE} * \text{Contract Length} / \text{Full Contract Length}$). This calculation includes Psychologists and Special Education Psychologists (staff reported with position codes 7 and 27). Any fractional FTE greater than 1 is rounded to the nearest whole number. For more information, refer to the [Staff Validation guidance document](#).

SOCIAL WORKERS

The total adjusted FTE of Social Workers at the district, as reported in [Staff Position](#). FTE is adjusted based on the contract and full contract length to account for staff who do not work the full academic year ($\text{FTE} * \text{Contract Length} / \text{Full Contract Length}$). This calculation includes Social Workers and Special Education Social Workers (staff reported with position codes 31 and 41). Any fractional FTE greater than 1 is rounded to the nearest whole number. For more information, refer to the [Staff FTE and Staff Ethnicity Validation guidance document](#).

TEACHER EXPERIENCE

The Teacher Experience percentage is calculated by dividing the number of Experienced Teachers who are licensed by the total number of Teachers who are licensed at a given institution. Data come from the 2023-24 Staff Position Collection. A teacher is defined as a head teacher, teacher, special education teacher, or special education physical education teacher (position codes 5, 8, 22, or 23). They are considered an Experienced Teacher if they are reported as licensed and the sum of the years of experience in Oregon and outside of Oregon is greater than 3 years.

Teachers who are not included in this calculation include the following:

- Teachers who are reported as unlicensed in the Staff Position Collection or

- Teachers who are on TSPC's charter school registry but not otherwise licensed or

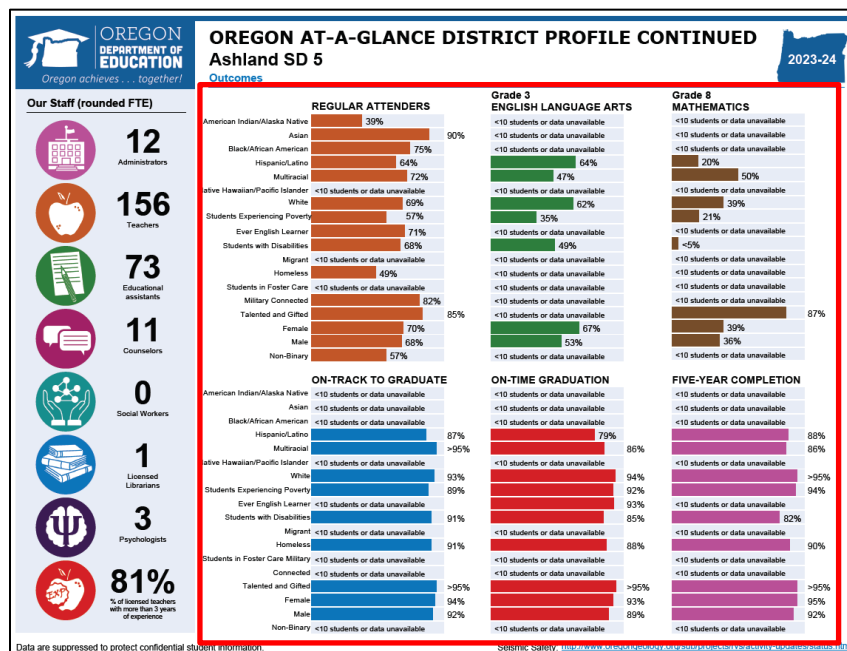

For more information, refer to the [Staff Validation Guidance](#) document.

OUTCOMES

The Outcomes sections shows disaggregated data for the indicators from the first page of the At-A-Glance district profile.

The following rules describe how student group inclusion is determined.

The data are suppressed when necessary: if the number of students in the denominator is less than ten then this indicator is suppressed with "<10 students or data unavailable"; when the percentage is less than 5 or greater than 95, we display "<5" and ">95", respectively.
